

Name: _____

Earthworm Assessment

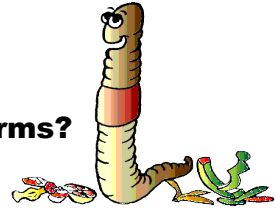

Breakdown: Earthworms!

Now that you have been composting with worms for the past four weeks, think back- how did you *feel* about working with Earthworms at the beginning? How do you *feel* about working with Earthworms now? Please be specific- use *descriptive* words to describe these feelings!

Do you believe that composting a good and effective means to dispose of waste? Why or why not?

Would you continue composting on your own if you were allowed to at home? Why or why not?

**What are the most important things that you've learned about earthworms?
Please list them below:**

If you were to tell someone else about composting, what would be the most important facts that you would tell them? Please list them below:

****On your own- can you label the parts of the Earthworm? You may use the Internet or any other source to help you.*
